Name: Sanjana Gowda R

Sem 1 BCA sec A

DAY 4: Assessment task

YOUR FIRST PYTHON SCRIPT

Q1) Read two print lines

```
python
print (“tools ready”)
print (“first script ready”)
```

```
output
tools ready
first script ready
```

Q2) Run the saved script with uv

MAIN.PY

```
Print ("Hello, Patashala!")
print ("This is YOUR first Python program.")
print ("You wrote code, and it ran.")
```

TERMINAL

```
$ uv run python main.py
```

OUTPUT

```
Hello, Patashala!
This is YOUR first Python program.
You wrote code, and it ran.
```

Q3) Order the first-script steps

save `main.py`
run `main.py`
inspect the output

Q4) Write and predict a two-line script

```
print (“terminal checked”)
print (“python checked”)
```

```
terminal  checked
python checked
```

Q5) Correct mian.py to main.py

MAIN.PY

```
text
uv run python main.py
```

Q6) Diagnose stale output

Cause: the learner did not save the edited version of that file.

Recovery: save the file `main.py`

Expected output: `New text`

Q7) Complete the first-script loop

Save and run:

Use Ctrl+S or Cmd+S save the existing uv file.

Use `$ uv run python main.py`

Inspect:

```
Setup checked
Ready to continue
```

Adjust:

```
python
print (“Setup checked”)
print (“Ready to practice”)
```
